Professional Summary

Practical and detail-oriented Network Technician with strong foundational Cisco networking skills and NVQ Level 4 training in Computer Network Technology. Currently pursuing CCNA certification with hands-on experience in designing and simulating LAN topologies, implementing VLANs and ACLs, and deploying Windows/Linux server environments for small-office networks. Strong troubleshooting mindset, clear communication skills, and a commitment to continuous learning and operational excellence in technical support and networking roles.

Certifications

- CCNA (Cisco Certified Network Associate)
- Computer Network Technician (NVQ Level 4) — In Progress
- Coursework in software development and ongoing self-study in networking & automation

Languages

- English
- Sinhala

Education

Computer Network Technician — NVTI Narahenpita

2025 Jan – 2025 Dec

Currently pursuing NVQ Level 4 with a focus on CCNA networking concepts and practical implementation.

Advanced Level (A/L) — Central College, Homagama

2022 Jan – 2024 Nov

Completed Advanced Level (A/L) in Technology Stream

Index No: 1282255

- Science for Technology – **B**
- Engineering Technology – **B**
- Information & Communication Technology – **B**

Ordinary Level (O/L) — Central College, Homagama

2011 Jan – 2021 Jun

Index No: 11266848

Grades: ICT – A • Business & Accounting – B • Art – B • History – B • Mathematics – C • Science – C • Islam – C • Sinhala – C • English – S

Full Stack Developer Programme — University of Moratuwa

Completed beginner-level modules in software development and web technologies.

Technical Skills

CCNA Networking Skills:

IPv4/IPv6, subnetting, VLANs, trunking, STP, EtherChannel, OSPF, EIGRP, static routing, ACLs, NAT/PAT, DHCP, DNS, WLAN, WAN technologies, Cisco IOS configuration, SSH, port security, troubleshooting (show/debug), network automation basics (Python, REST API), Wireshark

Systems: Windows Server installation/configuration, Linux administration (basic),CCTV System installation/configuration

Tools & Languages: Cisco Packet Tracer, VS code, Python, HTML, JavaScript, PHP, MS Office, Adobe Photoshop/Illustrator

Practices: Network troubleshooting, documentation, hardware/software configuration, user support

Soft Skills

- Project Management.
- Public Relations.
- Leadership.
- Teamwork.
- Time Management.
- Effective Communication.
